

vacuum-resource.org

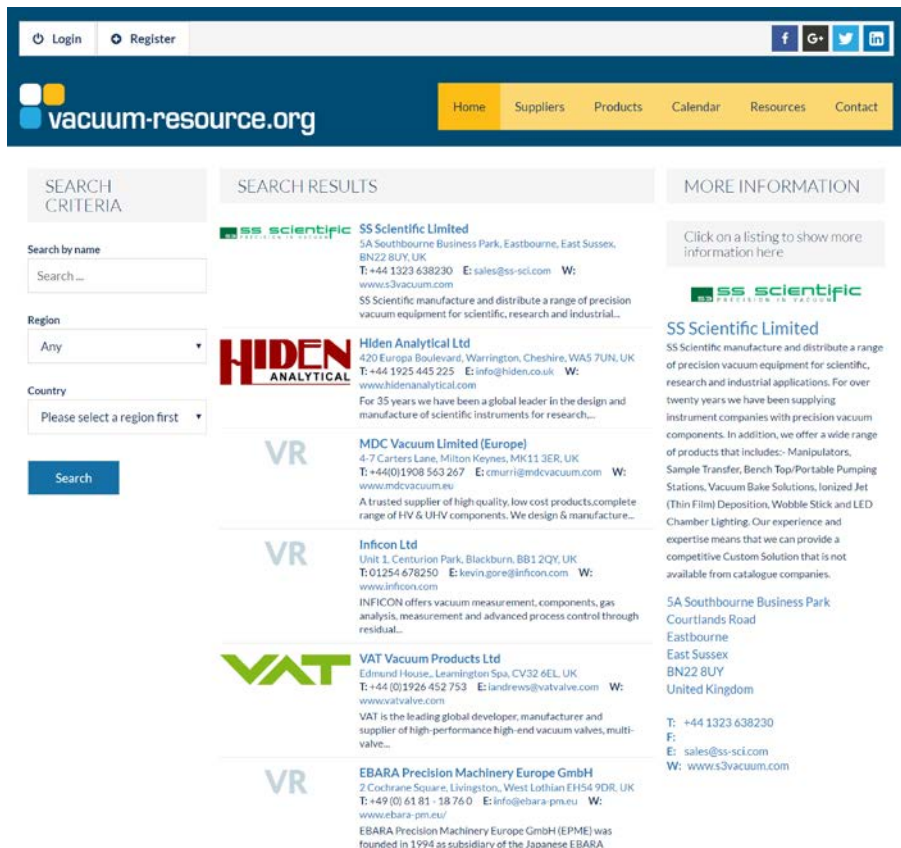

Media Pack & Rates 2018

Vacuum-Resource.Org is a central resource site administered by vacuum professionals with the aim of bringing together individuals, academic and commercial organisations to share and contribute to the latest news, products and articles.

Your listing on the site guarantees maximum exposure to quality professionals and uniquely offers:-

- Supplier Listing by ranking and searchable by:
Keyword
Geographical location
- Contact details
- Direct link to your website
- Technology/Product category specific listing (2 product categories selectable)
- Links to all company news items (free to submit)
- Meta tagging to all relevant technology categories

A BASIC LISTING (as described above) IS FREE!

The screenshot shows the search results page on vacuum-resource.org. The page is divided into three main sections: SEARCH CRITERIA, SEARCH RESULTS, and MORE INFORMATION.

SEARCH CRITERIA: Includes fields for 'Search by name' (with a search box), 'Region' (set to 'Any'), and 'Country' (with a dropdown menu). A 'Search' button is located at the bottom of this section.

SEARCH RESULTS: Lists several suppliers with their logos and contact information:

BOOKS

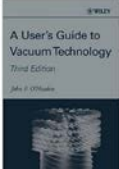

Understanding Modern Vacuum Technology

The purpose of this book is to help scientists, engineers and technicians learn about and better understand the vacuum technology found in science and industry today. Understanding how the equipment is built and functions will help the practitioner create more successful applications. This book is written so that anyone new to the art, or even an experienced practitioner, who wishes to learn about vacuum engineering can do so quickly and easily. It provides an undercut to the many classic texts that are still available today. Armed with the information contained within, the technologist will be able to go to the more advanced materials, if needed, and absorb that knowledge quickly and efficiently.

Author: Steve Borichevsky
Publisher: CreateSpace
ISBN 13: 978-1537425054

A User's Guide to Vacuum Technology

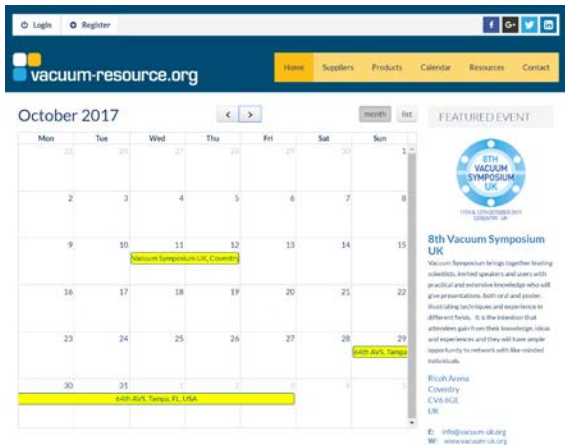

In the decade and a half since the publication of the Second Edition of A User's Guide to Vacuum Technology there have been many important advances in the field, including spinning rotor gauges, dry mechanical pumps, magnetically levitated turbo pumps, and ultraclean system designs. These, along with improved cleaning and assembly techniques have made contamination-free manufacturing a reality. Designed to bridge the gap in both knowledge and training between designers and end users of vacuum equipment, the

Resource Pages provide detailed and informative entries that drive quality traffic to the site. These are fully contributable by our readership.

Categories include:

- books
- journals
- conferences

- First 6 months free!
- Limited to 2 Resource Page Sponsorships per company
- Typically £60 / year to sponsor a page – pricing dependent upon demand
- Incumbent Sponsor of a Page gets first refusal on renewal date
- High demand pages go to auction – incumbent can match highest bid

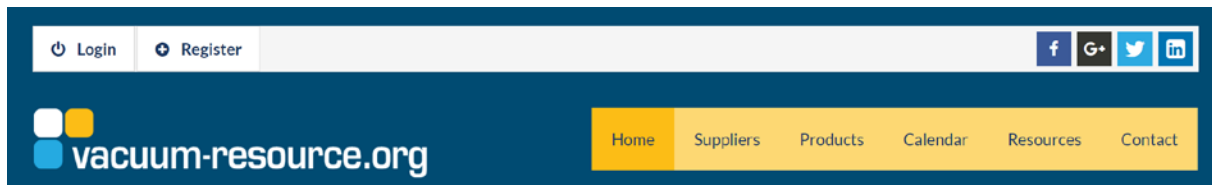

Want your company details displayed on a RESOURCES PAGE? Then please use the Contact Form to express your interest in sponsoring – first 6 months free of charge!

Alternatively, if you have better technical content and a photograph that you feel will enhance your company reputation then please submit your copy and the **first year** is free of charge.

Please use the Contact Form to express interest.

SPONSOR A NEWS ITEM (not available for BASIC Plan Listings)

Get a custom advertisement on the right sidebar of a News Item – widely linked and promoted to draw traffic to Vacuum-Resource.Org.

Vacuum Knowledgebase

Updated 12th January 2017

The Vacuum-Resource.Org website is well and truly open! We hope you find information that is relevant and of interest on these pages.

As a resource hub of everything vacuum we are building a searchable database of vacuum manufacturers and suppliers by location and products / technologies provided. The database is filling up quickly as there is no charge for companies to list on this website.

In the Resources Area (**Resources** – main navigation menu above) you will find information on all subjects and technologies related to vacuum. If there is anything you can't find, or you think should be included in Vacuum-Resource.Org then please let us know – use the Contact Form (member login required) or send an email to info@vacuum-resource.org.

Just waiting to see how the resource website develops? Why not show your interest by 'Liking us' on Facebook and 'Follow us' on Twitter.

- 3-month Advert on view : £50
- 6-month Advert on view : £70
- Maximum 9 months Advert exposure per year
- Advert size: 750k max. & at least 315px wide

Want a company advertisement displayed alongside a News Item? Then please use the Contact Form to express your interest or contact us by email: advertising@vacuum-resource.org.

HOME PAGE – FEATURED COMPANY (not available for BASIC or BRONZE Plan Listings)

Promote your company with your Listing featured on the Home Page. Extracted from the Supplier Directory and shown on the right sidebar of the Product Spotlight (an extended technical description of a product category).

This prime location is only available to Silver & Gold Plan Listings. You will be involved in the editorial for the Product Spotlight and limited to 3 months on the Home Page, at no extra cost over and above your Plan fee.

The screenshot shows the website's home page layout. At the top, there are navigation links for 'Login' and 'Register', and social media icons for Facebook, Google+, Twitter, and LinkedIn. Below this is a dark blue header with the 'vacuum-resource.org' logo and a yellow navigation bar containing links for 'Home', 'Suppliers', 'Products', 'Calendar', 'Resources', and 'Contact'. The main content area features a large image of industrial vacuum equipment. Below the image, the page is divided into several sections: 'LOGIN' with input fields for email and password, a 'Log In' button, and links for 'Forgot Password?' and 'Register Here'; 'SOMETHING FOR ALL VACUUM USERS' with introductory text about vacuum technology and a call to register; 'LATEST NEWS' with two articles: 'WEBSITE OPEN' (with a 'Read More' link) and 'CREATE A LISTING' (with a 'Read More' link); 'PRODUCT SPOTLIGHT' featuring a 'Residual Gas Analyzer (RGA)' with detailed text and a bullet point; and 'FEATURED COMPANY' highlighting 'HIDEN ANALYTICAL' with a logo and a brief description of their 35-year history in scientific instruments.

Want your company featured alongside the Product Spotlight? Then please use the Contact Form to express your interest or contact us by email: melanie@vacuum-resource.org.
